

# APRIL 2022 – the month for Contemporary Performing Street Arts Education

**beginners + masterclass + CPSA Digital**

## 3 courses, one after another each upgrading the previous one (with an Easter break in between)

After 15 years of organising courses *Street Theatre* and *Contemporary Performing Street Arts (CPSA)* within our school, we are offering to share our knowledge all in one intense month.

Attend them separately or all together! All happening in **Ljubljana, Slovenia**.

- **9-day Beginners (2.–10.4.)**

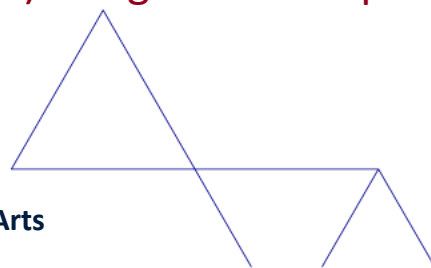

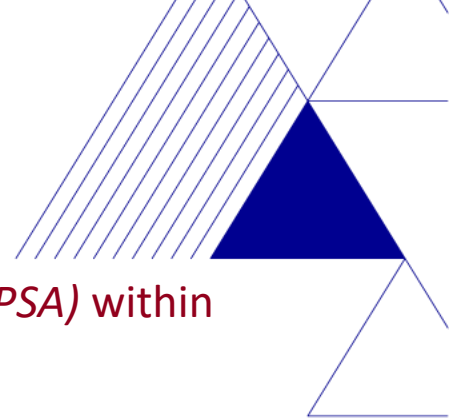

Gives enough knowledge and basic performing skills to be able to intervene and perform in public space. It is also a sufficient base for attending the following masterclass.

- **12-day Advance Masterclass (20.4.–1.5.)**

International mentors with years of performing experience and tested teaching styles.

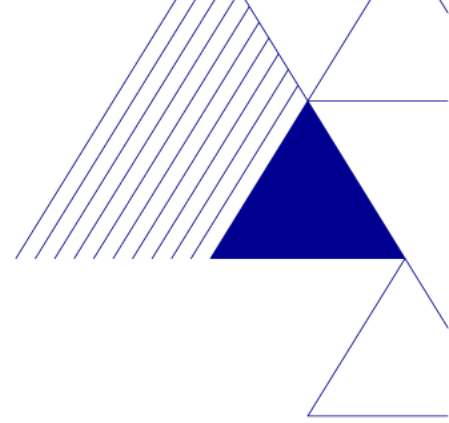

- **3-day SIMS (CPSA Digital) workshop (3.–5.5.)**

SIMS is our innovative live stream platform that enables audience to view the event through 4 different camera angles. Different arts professionals (street performers, theatre actors, directors, dancers, singers, computer and visual artists etc.) will gather to explore its various creative possibilities.
